Quick-start guide

Wi-Fi setup

Point your camera at the code, your phone will offer to join.

Network: **ClockBand-Setup**

Password: **12345678**

Getting started

1. Plug in power

Connect the USB-C power adapter. The belts will reference themselves on first run.

2. Join the setup network

Scan the QR code or manually connect to 'ClockBand-Setup' (password '12345678').

3. Pick your Wi-Fi

Your browser opens the setup automatically. Choose your home network and enter the password.

4. All set

Once NTP syncs, the clock shows the current time. Mount it wherever you like.

Time & sync

NTP runs automatically. Daylight-saving handled in the web UI. Keeps running offline with minimal drift.

Support & firmware
